Introduction to First Episode Psychosis:

UNLV Health-Mojave Counseling, along with the State of Nevada Division of Public and Behavioral Health, began the development of the UNLV Health-Mojave Counseling First Episode Psychosis (FEP) Program in January 2020. The FEP program was modeled after the successful, evidence-based NAVIGATE program and is a comprehensive program providing early and effective treatment to individuals who have experienced a first episode of psychosis. The FEP program began providing services through UNLV Health-Mojave Counseling in May 2020.

Services Provided by the First Episode Psychosis Team:

- | | |
|--|---|
| + Pharmacologic Management/Psychiatric Medication Services | + Supported Employment and Education (SEE) Services |
